3. Structure Governance and Management

Constitution and Governing Document

St George Foundation is a company limited by guarantee and is a registered charity. It was incorporated in April 2006 and commenced activities from 1 May 2006. Up to the end of April 2006, the work of St George Foundation was carried out as a restricted fund of Jacobs Well Care Centre, a registered charity. Members of the charity guaranteed to contribute an amount not exceeding £10 to the assets of the charity in the event of winding up. The total number of such guarantees at 31 March 2021 was 3. The trustees are members of the charity but this entitles them only to voting rights. The trustees have no beneficial interest in the charity.

The governing documents are the company's Memorandum and Articles of Association. These detail the object of the charity, which is:

- (i) To relieve poverty and sickness and advance education, in particular, but not exclusively, amongst homeless children and young people in Sierra Leone.

Recruitment and Appointment of Trustees

When recruiting trustees, the organisation ensures that the Board has a comprehensive range of skills needed in order to oversee the activities of the charity.

Trustees elected for the first time must be proposed by a member. Members elect trustees at the Annual General Meeting. The Board of Trustees must be three or more. In accordance with the Articles of Association, one-third of the trustees must retire by rotation at the Annual General Meeting and can seek re-election.

Organisational Structure

The Board of Trustees is responsible for setting the overall direction and policies of the organisation and areas of responsibility are split between the trustees.

The Chief Executive Officer is responsible to the Board for the implementation of policies and decisions.

4. Objectives

The charity's objective is to raise funds in the UK and provide those funds to St George Foundation Sierra Leone in furtherance of the charity's formal objects to relieve poverty

and sickness and advance education amongst homeless children and young people in Sierra Leone.

When planning the charity's activities for the year, the trustees have considered the Charity Commission's guidance on public benefit.

5. Achievements and Performance

During the period the charity has continued to provide funds and support in order to rescue further children from the streets of Freetown in Sierra Leone. The total number rescued and helped now amounts to over 1,400 children. The charity's approach aims to prepare the children for school and future life. Activities at the centre are designed to boost children's self-esteem, improve concentration, unite them as a family and put street life behind them. Singing, dancing, sport, simulated school and play-acting form part of the intense programme.

Once a child enrolls at the charity centre in Sierra Leone, the charity begins a reunification process, looking to find and bring together the child with its natural or extended family. Most of the children rescued so far have been successfully reunited with families or looked after by foster parents.

The charity in Sierra Leone relocated to Grafton on the outskirts of Freetown, in 2007, having renovated a site there.

There are opportunities to sponsor a child and help pay for their education, details of which are contained on the website at www.stgeorgefoundation.org.uk

Sierra Leone struggled to contain the Ebola outbreak, and in October 2014 it arrived on the outskirts of Freetown. This resulted in a large number of orphaned children being thrown onto the streets, many of whom have had Ebola and survived.

In November 2014 the charity in Sierra Leone started a programme of taking in these children, and has taken in over 300 such children. The plan was to feed and clothe them, care for them, and reunite them with other relations or find and train foster parents, and has been successfully achieved.

The charity was asked by the government to look after the western rural region of Sierra Leone, educating the population about Ebola and seeking to contain it in this area – a region of many towns and villages, with a population of circa 250,000. Some assistance has been provided by UNICEF in the form of transport.

Rescuing Ebola orphans was concluded in December 2015, largely due to lack of funds. The charity has provided funds to help families of rescued street children to start-up businesses in Sierra Leone (the Small Business Initiative), so that they are able to fund their own children's education costs.

In August 2017 there was considerable flooding in Freetown, which led to a large landslide, causing many deaths and injuries. The charity assisted in looking after survivors, taking in 20 children and 15 adults, and reuniting them with families.

Unfortunately, similar flooding occurred again last August. The charity helped about 100 displaced children, 50 of whom were brought temporarily into the Centre. They have now all been reunited with families.

The Government took quick action when the first Covid 19 case was discovered, and as a consequence Sierra Leone has not suffered too badly. The charity cut costs and reduced the number of children at the Centre to 20.

In March 2021 there was a fire in Freetown causing homeless children. The charity took in a number of these children, providing food and shelter, before reuniting them with family members.

6. Financial Review

Net Incoming Resources

Unrestricted funds show a surplus for the year of £14,554.

The unrestricted fund income totalling £69,239 is up on the previous year's income of £65,509, an increase of £3,730, but unrestricted fund expenditure is sharply down £12,202 at £54,685, thus providing the surplus. Restricted fund income is up by £10,978, due to the donations in connection with the Centre purchase, Duke's medical expenses and the Fire Victims.

Unrestricted costs were lower, particularly, food, provisions and salaries due to the reduction in the number of children at the Centre.

Overheads and Reserves

The Board are committed to minimising overheads in the UK. For the year the UK overheads amounted to £1,166, which was just under 2% of total expenditure. It is hoped that sufficient general reserves will be retained to cover ongoing costs, but the Board's policy is to expend sums raised as soon as possible in achieving the charity's objects.

Balance Sheet

The cash balance has improved, partly due to restricted funds. Bringing in sufficient funds to meet the charity's needs continues to be a priority, particularly the regular monthly income.

7. Plans for the Future

The number of children at the Centre has increased to 35, and it is hoped that the numbers will increase further in 2022.

Due to the wonderful generosity of supporters, the Interim Care Centre at Grafton has been purchased and fund raising to buy the land next door is going well. It is hoped to use this extra land to promote environmental education to the children at the Centre and other children and young people in the locality.

This report has been prepared in accordance with the small company's regime under the Companies Act 2006.
